

SLIPSHEETS

SIGNODE NETHERLANDS B.V.

SLIPSHEETS

Slipsheets are being used to replace pallets during transport. With our slipsheets companies can save space, for example in a container, so more volume can be loaded.

Slipsheets can be supplied in 3 different qualities:

- Paper slipsheets
- Ecoload® slipsheets
- Plastic slipsheets

SLIPSHEETS

What do you need to process slipsheets?

Rollerforks

Push-Pull

ADVANTAGES

SLIPSHEETS vs PALLETS:

- Using slipsheets instead of pallets gives you for 12-15% more volume in material handling containers.
- Slipsheets do not require maintenance and can easily be replaced at low costs.
- Slipsheets reduce significantly material handling costs.
- Slipsheets weigh 20 times less than pallets.
- Slipsheets can be customized to fit any size load.
- Slipsheets eliminate the need for pallet exchange.
- Slipsheets are reusable and reliable.
- Slipsheets are recyclable.
- Slipsheets are cost-effective.
- No need for ISPM 15/ Heat treated pallets.

ADVANTAGES

SLIPSHEETS vs PALLETS:

- ✓ Slipsheets are moisture resistant.
- ✓ Slipsheets are reusable and safe.
- ✓ Slipsheets have a higher tensile strength (pull resistance).
- ✓ Slipsheets minimize occupied warehouse space.
